

**International Conference on Celestial Mechanics  
& Dynamical Astronomy  
(15<sup>th</sup> – 17<sup>th</sup> December 2015)**

**Maulana Azad National Urdu University, Hyderabad, India**

*About the conference:*

The objective of this conference is to expose young scientists (students, research scholars and faculty) to modern trends in Celestial Mechanics & Dynamical Astronomy by inviting leading experts (National/International) from these areas. The focus of the conference is the study of the role of dynamics in Astronomy. We shall explore the observational and theoretical study of dynamics ranging from binary & triple systems to star clusters, galaxies and galactic clusters including gas dynamics in these systems. The objective of this conference is also to promote International collaboration, with emphasis on the exchange of ideas, information and opinions.
